EDUCATION

Ph.D., Electrical and Computer Engineering, Purdue University, IN, USA Aug 2020 - present
GPA: **3.7/4.0**, Supervised by Prof. **James C. Davis**

B.S., Applied Physics, Southeast University, Jiangsu, China Aug 2016 - Jun 2020
- **Study Abroad Program**, GPA: **3.8/4.0**, Engineering Physics, UC Santa Barbara, CA, USA Mar 2019 - Jun 2019

Relevant **Courses**: Software Engineering, Artificial Intelligence, Deep Learning, Computer Vision, Computer Network Systems, Operating Systems, Compilers, Computational Models & Methods

RESEARCH & WORK EXPERIENCE

Software engineering support for pre-trained deep learning models, *Research Assistant* Feb 2022 - present
- **Lead a team** of students, conducted an empirical study on pre-trained deep learning model supply chain.
- Measure the trustworthiness of deep learning model registries through **model audit**, **risk analysis**, and **interviews**.

A Machine Shop Dataset for Computer Vision, *Research Assistant* May 2022 - Aug 2022
- **Lead a team** of students, **collected video data** of safe and unsafe behavior in campus workshop.

Empirical Study on Computer Vision Reengineering, *Research Assistant* Jan 2021 - Mar 2022
- **Lead a team** of students, collect open-source bug reports, and analyze the dataset.
- Conduct a case study on a reengineering team cooperating with Google, and present findings in a paper.

TensorFlow Model Garden Team (Google x Purdue), *ML engineer, team leader* Sep 2021 - present
- **Lead a team** of 6 students reproducing a recent computer vision model, *i.e.*, YOLO.
- Contribute to development and testing of model architecture and component integration.

SKILLS AND INTERESTS

Technical Skills: Python, Java, C/C++, Unix, Git, Mathematica, MATLAB

Libraries: Numpy, Pandas, Matplotlib, TensorFlow, Pytorch

Languages: Mandarin (Native), English

Personal Interests: Photography, Cooking, Guitar
